**Tablet Pro** is a two and a half day comprehensive course covering the key fundamentals to understanding tablet manufacturing operations in pharmaceutical and dietary supplement manufacturing. **Tablet Pro** is exactly what our industry is about today; delivering the methodology, documentation and mindset required to meet the needs of our changing industry.

We will focus on a step by step explanation of each unit operation within the tablet making process, common terminology, and practical knowledge of each topic.

The main topics are The Tablet Making Process, Unit Operations, Powder & Granulation Flow, Formulation Basics, Tablet Compression Basics, Press Operation, Advanced Tablet Compression, Tablet Press Tooling, Troubleshooting, and Defects.

The participant will be able to quickly look at a formula and determine the process used to manufacture it. They will be able to go into any pharmaceutical company and understand the equipment and the manufacturing pathway.

This program will put different departments on the same page and is an excellent basis for in-house training. Even the most experienced veteran will gain from this seminar. This will be the most enjoyable and educational seminar you have ever attended.

The Techceuticals Training Center in Bluffton, SC will provide the perfect setting for a comprehensive pharmaceutical manufacturing seminar. This is an opportunity to meet and work with other professionals.

# Tablet Pro

*Providing quality consulting, training,  
and equipment since 1989™*

## AN INVITATION FROM MIKE TOUSEY

I have been involved in the pharmaceutical industry since 1973 and have provided consulting & training to pharmaceutical and nutritional companies throughout the world. Everyone within the manufacturing facility from management to the operator, including R&D, QA, Tech Services, Maintenance, Supervisors, and Leads will benefit from our consulting & training programs. The goal is to have everyone exposed to the same information, to create a common denominator and to open communication. Companies that participate in our programs are encouraged to use our training materials to improve their own in house training programs.

You're invited to visit our website for technical tips, published articles, and many other resources. Please visit us at: [www.techceuticals.com](http://www.techceuticals.com). If you would like to discuss this information with me in person, please contact me.

Sincerely,  
**Michael D Tousey**
